## This IOSH Working Safely Course

*This is a 8 hour health and safety training course, although you do not need to complete the course in one go. The system will record your progress as you complete each stage of the course.*

## What does the IOSH Working Safely Course cover?

*The IOSH Working Safely Course covers the following:*

- Part 1: Introducing working safely
  - Part 2: Defining hazard and risk
  - Part 3: Identifying common hazards
  - Part 4: Improving safety performance
- 
- You will have 40 minutes to complete the final exam (for each attempt made).

## Why is it important to take our IOSH Working Safely Course?

*Do you how to introduce working safely? Do you know a hazard and risk is? Can you identify common hazards that are in your workplace? Do you know how to improve safety performance within your workplace?*

*Well, if not, you're in luck. Our online IOSH Working Safely training course answers these questions and much more, ensuring that your staff know about the importance associated with working safely within your workplace.*

## What is the benefit of IOSH Working Safely training to your business?

*Our IOSH Working Safely Course is for anyone who works or lives in the UK. This course will offer your staff effective and detailed Health and Safety training to help them become aware of their responsibilities of working within health and safety legislation. The training is suitable for private and public sector companies, including community homes (care homes) and other organisations in the healthcare sector. The training is also suitable for personal use.*
